Additional Independent Timer**

## DESIGNED FOR YOUR DREAM KITCHEN

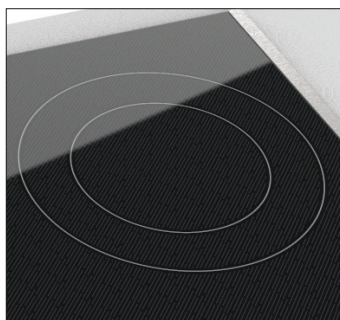

The Sharp® 30-inch SCR3041GB Electric Cooktop is a powerful, beautiful addition to your dream kitchen. The black mirror finish of the glass surface is a perfect match for modern appliances and can be combined with our Easy Wave Open Microwave Drawer™ Oven and our European Convection Built-In Single Wall Oven. Enjoy precise temperature control with touch-glass controls for each of the four cooking zones.

The SCR3041GB features a variable-sized zone with Double Heater capability to handle larger size pots and pans efficiently. Dual elements allow you to use multiple pan sizes, while the Bridge Heater synchronizes the two left cooking zones to accommodate larger cookware, such as griddles, grill pans, and custom cookware for your most elaborate entertaining. There's even a kitchen timer for each cooking zone. And without an open flame or radiant coil, spills and splatters are less likely to burn and a breeze to clean up. The Speed Boil function of the SCR3041GB is perfect for those times when you just need that pasta water to boil.

The Sharp 30-inch SCR3041GB Electric Cooktop includes practical safety features, including the control lock to prevent unwanted, or accidental use. The Hot Surface Light indicator lets you know at a glance if each of the cooking surfaces is on or still hot with residual heat. Powerful and efficient, fast and flexible, the beautiful Sharp SCR3041GB Electric Cooktop with Black Mirror Finish is certainly Simply Better Living.

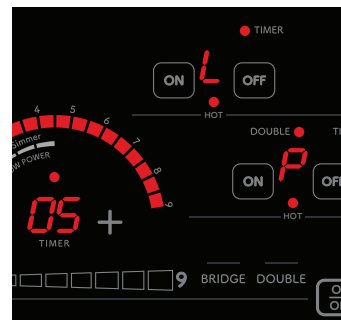

Offers a bridge element for oblong pans and longer cookware.

Convenient double heater capability to handle larger size pots and pans.

Precise Low Power holds the temperature for extraordinarily consistent simmering.

Bright red LED controls make the touch glass clear and easy to read.
